DETAILED ACTION

1. In response to the U.S. Application Ser. No. 10/605,235 filed on February 9, 2003, claims **1-9** are pending in the application.

Examiner's amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The specification has been amended as follows:

3. Claims **1-9** are allowed.

Keller et al. (US 6,128,232), Glasser (US 4,665,503) and Maeda (US 4,371,956) disclose an erasable programmable read only memory similar to that of the present application, but fail to teach:

"a first node of said first P-type MOS transistor is connected to source line voltage, a second node of said first P-type MOS transistor is connected to a first node of a second P-type MOS transistor, wherein a second node of said second P-type MOS transistor is connected to bit line voltage, wherein a gate of said second P-type MOS

Art Unit: 2824

transistor serves as a floating gate, wherein said erasable programmable read only memory does not need to bias a certain voltage on a control gate for programming and thereby injecting hot carriers onto said floating gate, and wherein said erasable programmable read only memory is capped by dielectric materials which are transparent to ultraviolet (UV) light” as claimed in the independent claim 1; or

“a first node of said first P-type MOS transistor is connected to source line voltage, a second node of said first P-type MOS transistor is connected to a first node of a second P-type MOS transistor, wherein a second node of said second P-type MOS transistor is connected to bit line voltage, wherein a gate of said second P-type MOS transistor serves as a floating gate, wherein said erasable programmable read only memory is capped by dielectric materials which are transparent to ultraviolet light” as claimed in the independent claim 6.

Any comments considered necessary by applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comment on Statement of Reasons for Allowance”.
